

2024-2025 State-Funded Acute Behavioral Health Services Benefit Plan

<i>Service Code(s):</i>	<i>Services Included (Sorted by Alphabetical Order):</i>
T2016U5, T2016U8	<u>Behavioral Health Urgent Care</u>
100	<u>Inpatient Behavioral Health Services: Inpatient Hospital Psychiatric Treatment (MH) Public-Private Partnership (PPP)</u>
100	<u>Inpatient Behavioral Health Services: Inpatient Hospital Psychiatric Treatment (MH), Including Three-Way Contracts</u>
100	<u>Inpatient Behavioral Health Services: Medically Managed Intensive Inpatient Service</u>
100	<u>Inpatient Behavioral Health Services: Medically Managed Intensive Inpatient Withdrawal Management Service</u>
H2011	<u>Mobile Crisis Management</u>
S9484	<u>Professional Treatment Services in Facility-Based Crisis Program</u>

Codes / modifier combinations not mentioned for specialized services will be found within contracts.

For State-Funded services (unless otherwise noted): Child services are available from age 3 through age 18. Adult services are available from age 18 and older.

Person-Centered Plan Requirements & Guidance

Providers can use the PCP template or develop their own template, but the PCP *must* contain all the required elements: 1) Assessment of life domains; 2) Person-Centered Interview Questions; 3) An action plan; 4) An enhanced crisis intervention plan, and; 5) A signature page. The PCP should be based on a comprehensive assessment that examines the individual's symptoms, behaviors, needs and preferences across the life domains listed below. Additional info can be found on the [NCDHHS Person-Centered Planning Training](#) webpage (PCP Guide). See the [JCB #445 Timelines for Implementation](#) for the implementation requirements for the new PCP guidance and templates.

Life Domains (PCP Guide)

Each life domain should provide a written picture of what is currently happening, what the individual's vision for a preferred life is for that area, and what the provider is doing to support the individual to move closer to living their preferred life.

- *Daily Life and Employment Domain:* What a person does as part of everyday life.
- *Community Living Domain:* Where and how someone lives.
- *Safety and Security Domain:* Staying safe and secure (finances, emergencies, relationships, neighborhood, legal rights, etc.).
- *Healthy Living Domain:* Managing and accessing health care and staying well.
- *Social and Spirituality Domain:* Building/strengthening friendships and relationships, cultural beliefs, and faith community.
- *Citizenship and Advocacy Domain:* Building valued roles, understanding personal rights, making choices, sexual orientation, self-identification, setting goals, assuming responsibility and driving how one's own life is lived.

Person-Centered Interview Questions (PCP Guide)

These identify what the person wants to work on, what they would like to accomplish, their identified strengths, and any identified obstacles preventing them from reaching their goals.

Action Plan (PCP Guide)

The Action Plan section of the PCP includes the individual's long-term goal, short-term goals, and interventions or the action steps to be taken to achieve these goals. For each desired long-term goal, the Action Plan will include short-term goal(s) as well as interventions.

- *Long-Term Goal Development:* what motivates the person to engage in services and make changes. These are personal to that individual, often reflect one or more Life Domains, and typically take time to achieve. Ideally, long-term goals are oriented toward quality-of-life priorities and not only the management of health conditions and symptoms.
- *Short-Term Goals:* help the person move closer to achieving their long-term goals. They reflect concrete changes in functioning/skills/activities that are meaningful to the person and are proof they are making progress. Short-term goals build on strengths while also addressing identified needs from the assessment that interfere with the attainment of the valued, long-term life goal(s). Short-term goals are written in SMART (Specific/Straightforward/Simple, Measurable, Achievable, Relevant, and Time-Limited) language.
- *Interventions:* reflect how all team individuals contribute to helping the person achieve their short-term goals. Interventions are the specific tasks the provider and individual agree on. The language of interventions should include: WHO is offering the intervention/support, WHAT

specifically will be provided or done (e.g., title of service or action), WHEN it is being offered – frequency and duration (e.g., once a month for 3 months), and WHY it is needed (i.e., how the intervention relates to the individual’s specific goal).

Enhanced Crisis Intervention Plan (PCP Guide)

A crisis plan includes supports/interventions aimed at preventing a crisis and the supports/interventions to employ if there is a crisis. It must include:

- Significant event(s) that may create increased stress and trigger the onset of a crisis.
- Early warning signs which indicate a possible upcoming crisis.
- Crisis prevention and early intervention strategies
- Strategies for crisis response and stabilization
- Specific recommendations for interacting with the person receiving a crisis service.
- Diagnosis and insurance information,
- Name and contact information for medical and mental health provider
- List of medications including doses and frequency, allergies, and other medical and dental concerns.
- Living situation and planning for any pets and people, etc. in case of a crisis if applicable.
- Employment/ Educational status and plan for notification if applicable
- Preferred method of communication and language.
- Names and contact information of formal and informal support persons
- Suicide prevention and intervention plan, behavior plan, youth in transition plan and Psychiatric Advance Directive (PAD), if applicable.
- Crisis follow-up planning to include: 1) The primary contact who will coordinate care if the individual requires inpatient or other specialized care; 2) Name of the person who will visit the individual while hospitalized, and; 3) Provider responsible to lead a review/debriefing following a crisis and the timeframe.

Signature Page (PCP Guide)

Signatures are authenticated when the individual signing enters the date next to their signature. Check boxes left blank on the signature pages of the PCP will be returned as incomplete. A signature page must include:

- Person Receiving Services - Dated signature is required when the person is his/her own legally responsible person. A provider may not bill Medicaid for services until this signature is acquired if the individual is his or her own legally responsible person.
- Legally Responsible Person - Dated signature when the person receiving services is not his/her own LRP. A provider may not bill Medicaid for services until this signature is acquired, when applicable.
- Person Responsible for the Plan - Dated signature is required. Inclusion of the required information on the signature page of the PCP template by the Person Responsible for the Plan is also required for individuals under the age of 21 (Medicaid) or under age 18 (State) who are receiving enhanced services and are actively involved with the Department of Juvenile Justice and Delinquency Prevention or the Criminal Court System.

- Service Order/Confirmation of Medical Necessity - Dated signature is required, plus confirmation of medical necessity, indication of whether review of the comprehensive clinical assessment occurred, and indication if the LP signing the service order had direct contact with the individual.

Guidance Around Signature Requirements

- All required signatures with dates must be completed.
- Signatures for child mental health services must be completed in the correct location on the form.
- Handwritten signatures require handwritten dates.
- Electronic signatures must have a date stamp, but a time stamp not required. Documents that contain an electronic signature may be in Word or PDF form.

Inpatient Behavioral Health Services

Inpatient Behavioral Health Services provide hospital treatment in a hospital setting 24 hours a day. Supportive nursing and medical care are provided under the supervision of a psychiatrist or a physician. This service is designed to provide continuous treatment for individuals with acute psychiatric or substance use problems.

For members with substance use disorder, Inpatient Behavioral Health Services cover:

- Medically Managed Intensive Inpatient Services- Adolescent
- Medically Managed Intensive Inpatient Services- Adult
- Medically Managed Intensive Withdrawal Management Services- Adult

For members with mental health disorders, Inpatient Behavioral Health Services cover:

- Inpatient Psychiatric Hospitalization- Child and Adolescent
- Inpatient Psychiatric Hospitalization- Adult

Definitions and Abbreviations

- ACT: Assertive Community Treatment
- American Society of Addiction Medicine Criteria: a treatment criterion for addictive, substance-related, and co-occurring condition
- CADT: Child and Adolescent Day Treatment
- CST: Community Support Team
- DRG: Diagnosis-Related Group
- Early and Periodic Screening, Diagnostic, and Treatment (EPSDT): a federal Medicaid requirement that requires the state Medicaid agency to cover services, products, or procedures for Medicaid member under 21 years of age if the service is medically necessary health care to correct

or ameliorate a defect, physical or mental illness, or a condition [health problem] identified through a screening examination (includes any evaluation by a physician or other licensed practitioner).

- IIH: Intensive In-Home Services
- IMD: Institute of Mental Disease
- Medication Assisted Treatment (MAT): the use of medications, in combination with counseling and behavioral therapist, to provide a “whole patient’ approach to the treatment of substance use disorders. Medications used in MAT are approved by the Food and Drug Administration, and MAT programs are clinically driven and tailored to meet each member’s needs.
- MST: Multisystemic therapy
- SACOT: Substance Abuse Comprehensive Outpatient
- SAIOP: Substance Abuse Intensive Outpatient
- Tx: Treatment

<p>Behavioral Health Urgent Care (BHUC)</p> <p><u>Code(s):</u></p> <p>T2016 U5: without Observation</p> <p>T2016 U8: with Observation</p>	<p>BHUC offers a safe alternative and diversion from the use of hospital EDs to address the needs of individuals experiencing BH crises. Service is a designated service for individuals experiencing a BH crisis related to a SU disorder, MH disorder, and/or I/DD dx or any combo of the above. A BHUC is designed to provide triage, crisis risk assessment, evaluation and intervention to individuals whose crisis response needs are deemed to be urgent or emergent. Individuals receiving this service will be evaluated, then stabilized and/or referred to the most appropriate level of care.</p>	<p><u>Initial & Concurrent Requests:</u> No prior approval is required.</p> <p><u>Service Specifics:</u></p> <ol style="list-style-type: none"> 1. BHUC services are either Tier III or Tier IV. Tier III BHUC operates at least 12 hours per day 7 days a week, 365 days a year w/ at least 6 hours occurring after 4:00 PM each day. A Tier IV BHUC is open 24 hours a day, 7 days a week, 365 days a year. 2. Only members meeting criteria for urgent or emergent are eligible for this BHUC service. If an individual is screened and the need is determined to be routine, they will be referred to a community-based service provider for follow up. 3. Triage must be initiated within 15 minutes of arrival. 4. The Crisis/Risk Assessment must be initiated within 2 hours of arrival at the BHUC. 5. If the individual is at a Tier IV BHUC and it is determined that there is a need for admission to a community hospital or an FBC and there is no immediate bed available (within 2 hours) the individual will be placed into Observation status. A voluntary individual is able to stay in Observation for a maximum length of stay of 23 hours and 59 minutes (23:59). Individuals that meet medical necessity for IVC can be held in observation beyond 23 hours and 59 minutes. During this time the individual is continuously being assessed for the need of continued stay or determination that the crisis has been resolved, and the person is able to return independently to the community with follow up services. 6. Upon discharge, individuals will be provided with written discharge instructions including information such as medications, community resource referrals, and scheduled appointment date, time and location. 7. Disposition coordination and discharge planning includes communicating with Trillium Care Coordination and/or other care management entities. 	<p><u>Length of Stay & Units:</u> One unit = 1 event. Individuals receiving this service will be evaluated, then stabilized and/or referred to the most appropriate level of care.</p> <p><u>Age Group:</u> Children, Adolescents & Adults (aged 4 and older)</p> <p><u>Population Served:</u> All Behavioral Health Diagnosis</p> <p><u>Place of Service:</u> Office and clinics as clinically indicated</p> <p><u>Service Specifics, Limitations/ Exclusions (not all inclusive):</u></p> <ol style="list-style-type: none"> 1. Not a step-down service for inpatient/FBC discharge 2. Not for routine follow up for med management and cannot administer routine injectable meds 3. Not to replace first responder services 4. Not to replace MCM nor to be used as a diversion from MCM 5. Not to be billed at the same time as other services. 	<p>State-Funded Behavioral Health Urgent Care Service Definition</p> <p>APSM 45-2 Records Management and Documentation Manuals</p>
