For Psychiatric Inpatient Hospitalization service, rates vary by hospital. The current rate increase of 20% will end on 1/31/21, and then a 5% increase will be applied to all applicable contracts through 3/31/21. This will be in addition to the permanent 5% increase that was applied effective 7/1/20.

***Old rate X 1.1% increase = new rate. Always round up if 3rd decimal is 5 or more and round down for less than 5.
 For Example: If the current rate is \$201.00 per day and there is a 15% increase, the new rate would be calculated as: 201.00 * 1.15 = 231.15**
