

Trillium Health Resources Internship Opportunity

ABOUT TRILLIUM HEALTH RESOURCES

Trillium Health Resources is a local governmental agency (LME/MCO) that manages mental health, substance use, and intellectual/developmental disability services in 26 eastern North Carolina counties. Our responsibility is to connect individuals and families to the help they need when they need it. We are responsible for managing state and federally funded services for people who receive Medicaid, are uninsured or cannot afford services.

Trillium's mission is: "Transforming lives and building community well-being through partnership and proven solutions." Trillium is committed to coordinating quality services for all members and their families based on each member's needs, with the ultimate goals of independence, autonomy, and fulfilling one's potential. We believe that the people we serve are citizens with all the rights and responsibilities that includes.

Trillium does not provide direct care. Instead, we partner with agencies and licensed therapists in our Provider Network to offer services and supports to people in need in or near their own communities. We ensure the delivery of the right services, in the right amount, at the right time. We also work collaboratively with local non-profits, other governmental agencies, medical providers, and hospitals to create a holistic system of total patient care that recognizes all needs of an individual.

WHAT YOU'LL GAIN

As a Trillium Health Resources intern, you will work alongside passionate and experienced professionals in the behavioral health field to promote positive outcomes for members. You will have the opportunity to contribute to the future of North Carolina's health system by sharing ideas and implementing exciting projects.

By completing an internship with Trillium you will learn and be exposed to:

-  The development of exploratory skills
-  Knowledge about locally managed health care
-  Project management and teamwork insight

Our expectation is to provide you with the tools, skills and confidence that will add value your professional goals. You will be assigned an on-site supervisor that will provide mentorship, in addition to scheduled formal and informal check-ins and evaluations.

WHO WE'RE LOOKING FOR

We are looking for self-motivated, creative and passionate individuals that are eager to think outside of the box! This internship is open to undergraduate students who are enrolled in a North Carolina college or university and who are interested in working in the public sector. The ideal candidates will possess good oral and written communication, with some working knowledge of Excel, Microsoft Word, and PowerPoint. Interns will need to possess the ability to participate within a multi-disciplinary team as well as act autonomously as appropriate. Knowledge about mental health, substance use, and individuals with developmental disabilities is appreciated, but not required. Internships will be completed within office hours from 8:30am - 5:00pm, but the schedule can be adjusted around classes and to meet minimum school requirements.

Please Note: This is an unpaid, non-clinical internship.

CURRENT OPENINGS

Internship opportunity in our Finance Department

Title:	Finance Support Associate and/or Accounting Support Associate
Location:	Ahoskie and Greenville, NC
Closing Date:	Open until filled
Preferred academic major:	Accounting, Finance, Business, and/or Management

Our internship program projects are designed to give you real-world finance and accounting experiences along with project responsibility in a local government setting. In addition to being assigned to a manager and team, you will get additional opportunities to experience our culture with exposure to finance leaders as well as others in the organization.

Applicants may apply by completing the [Trillium Internship Application](#).
