

Roadmap 2 Ready

Hurricane Season Readiness

There are important changes to emergency kits and shelters this hurricane season because of COVID-19. This **Roadmap2Ready** tool kit includes links for readiness tips and resources for Hurricane Season.

An important reminder

Hurricane Season is from June 1 to November 30. To make sure you are ready now, not when a storm arrives in our region, start making your plan by visiting www.ready.gov/plan

Red Cross recommends building two kits (a stay at home kit and an evacuation kit). [Click here](#) to learn what should be included in your kits. Information on preparing a kit for an individual with a disability can be found [at this link](#). All kits should include a one-month supply of medications. A starter list for a kit includes: water and food, first aid kit, copies of important documents like passports, flashlight and batteries, and a face mask.

The North Carolina Department of Public Safety launched Know Your Zone, an evacuation look up tool to help you know when to evacuate your home as a hurricane approaches. [Know your zone by selecting this link](#).

Stay Informed about COVID-19 during hurricane season by visiting the [CDC website](#). For American Sign Language COVID-19 [videos visit this link](#). For quick access to hurricane updates add the [FEMA app](#). Locate Emergency Shelters at the [ReadyNC](#) website.
