

THE GROWING CLINICIANS COLLECTIVE:

A supportive professional learning community for developing behavioral health clinicians.

Questions? Contact lisa.tyndall@foundationhli.org

ABOUT THE WORKSHOPS:

Participants will join a cohort of other fully or provisionally licensed mental and behavioral health clinicians to discuss case examples. Through these case discussions, participants will consider new ways of conceptualizing cases with evidence-based theories, learn from one another in a collaborative environment, and experience a sense of support and validation. Topics include:

- »» Use of Self: The Therapist as Instrument
- »» It's Not Just Behavior, Nervous System in the Therapy Process
- »» The Space Between
- »» Inside the Home: Addressing Substance Use with Clients
- »» Better Together: Collaboration in Therapy
- »» The Home as Therapy Room

APPLICATION

Participants are asked to commit to all six workshop sessions, either joining virtually or in-person. Once participation is confirmed, participants must complete the pre-assessment and complete the post-assessment to be eligible for incentives of \$100 per session (max \$600). Priority registration will be given to those clinicians serving clients with Medicaid coverage or uninsured. Continuing education credits will also be offered. Seats are limited to 15 people per cohort.
