

# An Introduction to Child and Family Teams: A Cross-System Training from the Family's Perspective

## PRESENTERS

**Libby Jones**, Family Partner      **Hope Eley**, System of Care Coordinator, Trillium Health Resources

## OVERVIEW OF TRAINING OBJECTIVES

This is a two-day experiential training developed in partnership with families in North Carolina. The goal is to provide an overview of Child and Family Team meetings from the family's perspective.

Families, through focus groups and through direct involvement in curriculum writing, provided essential guidance in the development of this training. The training is grounded in their knowledge and experience, especially regarding how to make Child and Family Teams a successful way to support the active involvement of families, children and youth in planning for the family.

This training seeks to reinforce the idea of "one family, one plan" by addressing Child and Family Teams through the lens of multiple systems as they affect families in their everyday lives. We encourage both agency representatives and parents/family members to attend this training.

Participants should come ready to be actively engaged in the process for two full days. The majority of the training will be presented through the experience of mock Child and Family Team meeting role-plays. At various times throughout the training, participants will serve as members of the meeting process and as observers of the meeting process. Trainers will provide opportunities for connection, introspection, conversation and exploration about how to best bring families to the table.

**August 28 and 29, 2023**  
9:00 a.m.- 4:30 p.m.

Pitt County Agricultural Center  
403 Government Circle, Greenville, NC 27858
