

Supporting Children Early SIMULATION

**Join us as we walk
through the challenges.**

Supporting Children Early can give kids with disabilities the tools they need for lifelong success. Kids and families often experience challenges when seeking help. In the Supporting Children Early Simulation, you will walk in the shoes of the families and kids as they navigate their communities.

In this interactive activity, participants will navigate through mock stations that represent various services and resources. Participants will learn first-hand the barriers many families experience. Early detection and support will help kids take their best step forward in life. Together, we can build empathy. We can be the change so that every family and child can get the services and supports they need for happy, healthy lives.
