

Trillium Health Resources and Carolina Complete Health Tailored Plan Training Reciprocity Agreement

NCDHHS requires Providers to receive opportunities to view trainings specific to Tailored Plan requirements. Recognizing the need to comply with the NCDHHS and Tailored Plan requirements, the following reciprocity agreement has been developed between Trillium Health Resources and our physical health plan partner, Carolina Complete Health.

This reciprocity agreement is inclusive of the following identified trainings enveloped within CCH New Provider Orientation:

- **CCH New Provider Orientation**
 - **Early Periodic Screening Diagnostic Treatment**
 - **Into the Mouth of Babes**
 - **Population Health (titles vary)**
 - **Infection Prevention and Control**
 - **Cultural Competency**

Providing a cohesive approach to meet the requirements of NCDHHS and insure Providers are not burdened by duplicative training requirements, the *Trillium Health Resources and Carolina Complete Health Tailored Plan Training Reciprocity Agreement* will allow Providers to receive credit for the above trainings within each organizations independent tracking system.
