### TEMPERATURE MACHINE CAMPAIGN

Trillium Health Resources is launching a campaign to distribute Meridian Temperature Machines to our network providers who provide services to members in Group Homes, Adult Day Programs, Day Treatment Programs, Psychosocial Rehabilitation Centers, Outpatient Clinics, and Intensive or Comprehensive Outpatient group settings. Trillium is doing our part to help our members, families, and providers feel safe so service delivery can continue in these settings following recommended guidelines.

The Meridian Temperature Machines are designed to detect your temperature while wearing a face mask or shield. These machines will be a well-utilized tool to remain in compliance with state mandates and guidelines for reopening.

Please view the [Meridian Temperature Machine](#) video to see how the machine works.

Interested providers in the identified services and settings can complete the short application [Meridian Application Form](#) to be eligible to receive a Meridian Temperature Machine.

There is a limit to the number of machines available, so submit your application form as soon as possible to be on the list to receive one.

Trillium is dedicated to transforming lives and building strong communities. Let's work together to keep each other safe.

### ***Roadmap2Ready Hurricane Preparedness Tip #2***

September is National Preparedness Month and [Ready.gov](#) wants you to know that Disasters Don't Wait, Make Your Plan Today. Ready.gov provides information about making a plan based on recommendations from the Centers for Disease Control.

Trillium Health Resources is focused on preparing members and provider agencies for Hurricane Season during the COVID-19 pandemic. Disasters can happen anytime, but proactive measures can help reduce their impact. To help develop your disaster plan for hurricanes, please refer to our new webpage [here](#). Our **Roadmap2Ready** campaign was developed by our Community Crisis and Disaster Response team with the intention of connecting members and providers to reliable resources that assist with preparing for a hurricane. Our team collaborates with state, county, and community programs within our 26 county catchment area to identify gaps and needs related to inclusive disaster response.

Please inform Trillium of any service provision or operational changes as a result of a tropical storm or hurricane by completing the new **Changes to Provider Operations form**. This form is located on the

[Community Crisis and Disaster Response webpage](#) under the “Provider” tab when a storm is approaching. Our goal is to stay up to date about changes to service provision and to assist with continuing to best serve members.
