Subject: Permanent Supportive Housing Training Requirements and the Transitions to Community Living Initiative (JCB #380)

PERMANENT SUPPORTIVE HOUSING TRAINING REQUIREMENTS AND THE TRANSITIONS TO COMMUNITY LIVING INITIATIVE

North Carolina, entering the sixth year of the Transitions to Community Living Initiative (TCLI), coordinates with the Technical Assistance Collaborative (TAC) on the development of comprehensive Permanent Supportive Housing (PSH) training. The PSH training is based on the Substance Abuse Mental Health Services Administration (SAMHSA) Evidence-Based Practices Toolkit and supports the use of best practices in supporting individuals with mental illness in independent, community housing. Effective July 1, 2020, the DHHS Approved Tenancy Supports Training is the PSH training.

The PSH training is required for Community Support Team (CST) staff. Both Assertive Community Treatment (ACT) teams and Transition Management Services (TMS) teams also provide critical housing support to individuals participating in TCLI.

- Per the current ACT policy and the attached TMS service definition, staff must complete the DHHS Approved Tenancy Supports training.
- To support North Carolina in successfully placing and supporting individuals in independent, community housing, DHHS is requiring the primary ACT team member responsible for delivering tenancy support services and TMS Team Leads to complete the PSH training. All ACT teams and TMS teams must meet this requirement no later than April 1, 2021.

The training must be facilitated by approved trainers to meet the requirements. Qualified trainers include:
