
Trainer

Stephen M. Smith, Ph.D. is currently with the Mental Health Association of Westchester County, Inc and is a Staff Psychologist with the NYC CBTp.

This training series is sponsored by the Division of Mental Health, Developmental Disabilities, and Substance Abuse Services and the Institute for Best Practices, University of North Carolina at Chapel Hill.

Who Should Attend?

This initial training series is a first step in a longer-term implementation and dissemination effort of recovery-oriented CBT therapies (CT-R) within our community mental health providers, which includes ACT teams and CSTs. We will be inviting up to 12 individuals across the state who complete this orientation training to receive more advanced training and supervision in CT-R. These individuals will be enlisted as statewide champions and additional training resources for longer term efforts get this best practice implemented across North Carolina. Interested parties are to complete and submit an application to a review panel that includes staff from DHHS, Institute for Best Practices, and MCO staff.

To Register
