### **NCDHHS Approves Consolidation of Trillium, Eastpointe, and Sandhills Center**

**GREENVILLE, N.C.** –Today, North Carolina Department of Health and Human Services (NCDHHS) Secretary Kody H. Kinsley approved the consolidation agreement between Trillium Health Resources and Eastpointe Human Services, which provide managed care services to North Carolina’s Medicaid population. This approval includes the consolidation of Eastpointe and Sandhills Center. There will be a total of 46 counties in the combined region, effective January 1, 2024 that will now be operated by Trillium. For members and providers, the consolidation transition will occur on February 1, 2024.

As part of the agreement, all existing employees who desire employment and are in good standing will retain their positions.

The consolidation agreement prioritizes doing what is best for members and providers, focuses on whole-person care, and promotes continued investment in the communities we serve.

Our primary purpose is making sure our members have the highest quality care, delivered in the right amount at the right time. We will protect care continuity by honoring all provider contracts (for those in good standing and serving members in affected counties). It is important that members remain with their current provider or care manager.

We will host multiple provider information sessions to answer questions and provide necessary information.

-MORE-

“We will continue to keep members as our primary focus. We know the next few months will contain many new opportunities, but believe the hard work that Trillium, Eastpointe, and Sandhills Center have already put forth will lead to a successful consolidation,” shared Joy Futrell, CEO of Trillium Health Resources and the CEO of the consolidated entity.

Eastpointe’s CEO, Sarah Stroud, noted that, “This consolidation will promote additional provider investments that will ensure members continue to receive the highest-quality care. Our team is dedicated to continuing this beneficial cycle that has strengthened our communities.”

“This consolidation agreement has been structured to preserve the local connections that are critical to North Carolina’s public behavioral health system,” stated Anthony Ward, Sandhills Center’s CEO. “We are excited to bring a strong network of providers and knowledgeable staff to the consolidation to continue our good work.”

As part of this consolidation, we intend to build a unified team with all existing staff that places tremendous value on both institutional knowledge and local relationships.

We are excited about the consolidation agreement and all the opportunities it will present. We look forward to listening to people who live in these new counties, interacting with the agencies that serve them, and helping them reach their fullest potential. Our regional advisory boards will continue to represent all 46 counties, and we will still operate our local office sites.

NCDHHS will send notices to all transitioning members in early 2024, and they will receive welcome packets from Trillium after that time. Please [visit our website](#) in the weeks to come where we will soon start sharing more information about this transition.

Please note, the consolidation will proceed with exception of counties as listed below: Davidson County will align with Partners Health Management; Harnett County will align with Alliance Health; and Rockingham County will align with Vaya Health.

## ABOUT TRILLIUM HEALTH RESOURCES

Trillium Health Resources is a leading specialty care manager (LME/MCO) for individuals with substance use, mental illness and intellectual/developmental disabilities in 28 counties in eastern North Carolina. Trillium's mission is to transform the lives of people in need by providing them with ready access to quality care. We take a person-centered approach to health and wellbeing, coordinating care across multiple systems to achieve improved health outcomes, quality of care and efficient use of resources. Trillium is investing in innovation to meet the unique needs of the individuals and communities we serve, and remains focused on delivering the right services, in the right amount, at the right time.
