Network NewsBreak

Attention All Network Providers

Health Information Exchange (HIE) Training

Starting June 2020, all providers will be required to share digital records using the Health Information Exchange or they will not be able to bill for claims. Trillium will offer the following training sessions to help providers learn about this requirement from CMS and NC DHHS, the potential Electronic Health Records (HER) software platforms, and more.

NO COST

While the training is offered free of charge, it is only available to providers in the Trillium Network. For others interested in learning more, please visit https://hiea.nc.gov/blog/2017-06-29/nc-hiea-june-update
