NEW & IMPROVED Comprehensive Crisis Prevention & Intervention Plan

WHY A COMPREHENSIVE CRISIS PLAN?

Although crisis planning takes a considerable investment of time, we believe this is an investment worth making. When individuals who receive services in our system experience crises, they risk losing all they have struggled to achieve in recovery — jobs, housing, relationships, their health, and sometimes even their lives.

Effective Comprehensive Crisis Prevention and Intervention Plans may not only prevent people from experiencing these losses, but will help us become better shepherds of our state's resources by reducing our over-dependence on hospital emergency rooms, inpatient facilities, and other intensive and expensive crisis services.

KEY IMPROVEMENTS

-  Simplified Decision Making
-  Built-in instructions and guidance
-  Helpful action steps for each phase of a crisis episode
