

SPECIAL ANNOUNCEMENT

Trillium Gold Standard Certification for Research-Based Behavioral Health

Applications Opening Soon

The Trillium Gold Standard Certification for Research-Based Behavioral Health Treatment (RB-BHT) establishes a voluntary program focused on promoting high quality performance standards. The program recognizes providers who demonstrate measurable clinical outcomes, meaningful caregiver engagement, workforce stability, coordinated step-down planning, and strong digital accountability.

Providers with the Gold Standard or Gold Elite status will have indicated they exceeded the baseline requirements for RB-BHT providers—such as participating with families on the Attend Behavior app, a digital platform that helps deliver better outcomes for families.

We invite all RB-BHT providers to join us in expanding this impactful initiative to strengthen person-centered treatment and family-centered care. Together, we can achieve quality-driven excellence in care, strengthen parent engagement and improve outcomes for children receiving RB-BHT across our network.
