

URGENT

NOTIFICATION FOR PROVIDERS

Attention ALL Providers

IT has elected to manually run the RA/835 process this Thursday (3/14) to ensure all systems are working as expected. This will cause a slight delay in providers' 835s and RA files being uploaded to the providers' folders.

Since transitioning to our new Financial system (D365), our in-house process has changed dramatically. While we have had zero issues, we feel it best to manually run the system two more times, so we can validate the data, code, and output.

We choose to do this to ensure a smooth switch over when we turn the automation back on. This unprecedented step is to ensure the data we are providing is accurate, and the jobs are performed at the level IT requires.

Thanks for your understanding and patience and we apologize for any inconvenience. We will let everyone know once the files are available.

Trillium IT Department
