

Authorization Submission Guidelines

Trillium will implement a unified claims processing system on 10/01/2026 for Tailored Plan. Many Trillium Tailored Plan authorizations will be submitted to one system. To check on a specific physical health service or procedure for Trillium Tailored Plan members, use the [Pre-Auth Tool](#).

There is no change for Medicaid Direct Members or State Funded Recipients. These authorizations will continue to be submitted to Trillium's Business System as they are today via Provider Direct.

Line of Business & Authorization Service Type	Tailored Plan Submission	Medicaid Direct Submission
