

Integrated Care Efforts = Successful Outcomes For Member Health, Part I

- Overview of data about individuals with behavioral health and/or IDD with accessing public assistance programs
- Outline regulatory authorities, categories of aid, and policy direction of public assistance services
- Explain role of public assistance programs in meeting goals of Medicaid transformation and addressing social determinants of health
- Outline requirements of eligibility for public assistance programs & the role provider agencies play
- Provide tools for provider agencies to actively participate in obtaining & retaining public assistance for individuals

NO COST

While the training is offered free of charge, it is only available to providers in our network. Contact hours will be given upon completion of an evaluation form.

Transforming Lives

New location added to serve our Columbus County providers!

Any provider in our network is able to attend this training, too.
